Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 11, 13 and 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Cauthen US Patent 6,019,792.

Cauthen discloses an intervertebral implant comprising two separate halves (10 & 40), at least one prosthetic disc (90) located between the two housing halves, threaded exterior surface (80) and a plurality of recesses (62 & 72). It is an inherent characteristic of surgical procedures to insert more than one implant if the replacement of two or more natural discs are required.

Allowable Subject Matter

Claim 1-10 and 18-21 are allowed.

Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
